#### There Should Be No "Politics Played" in This Matter

By Victor L. Berger

HERE was a time when parks were considered a luxury. That was in the days when cities were walled in order to protect them from enemies and city space was therefore very costly. Cities were exceedingly unhealthy places in those days and continuously ravaged by all kinds of diseases.

With the growth of civilization and especially the progress of hygiene we have learned that parks are a necessity for a city and especially for every large city.

Parks are a necessity not because they afford a place for recreation and amusement for young and old-although that is also of importance. The main function of parks, however, is to improve the city air by

As everybody knows man and animals inhale oxygen and exhale carbonic acid, while trees and plants under the action of sunrays do the

Parks thus make for a healthy town.

Parks have rightly been called the lungs of a city. Small breathing places and open air grounds have been compared with the porces of the

Intelligent men now agree that a well developed park system is just as necessary for a large city as a well developed pair of lungs for a

Milwaukee is way behind as to its parks.

Milwankee got in very lare into the park deal. In fact Milwankee did not begin to buy any parks until 1690. At that time groves and wooded places had almost disappeared within the city limits-therefore the city had to go outside for parks. Moreover, it had to pay high prices for them. With the natural growth of Milwaukee these parks soon came within

It is rather queer that Milwaukee, a city with a strong German element, had not supplied itself with parks.

It was partly due to the fact that in our city the homes of the wellto-do people-of the "big tax payers"-were usually surrounded by trees

These substantial citizens were in absolute control in the past. They claimed that the city did not need any parks and that parks would be a waste of money. They were accustomed to call the entire city of Milwankee a garden because they—the "hig tax payers"—had very fine shade trees around their residences on the east side and on Grand avenue.

And as for the average German small bourgeois shop-keeper,-that thrifty individual was always more than willing to let the workingmen contract 99 different kinds of diseases if he thereby could save a \$1.25 a year

Of course, lack of parks means a greater frequency of saloons. It are more business for the physician, the druggist and the undertaker, means more sickness and more hospitals. Incidentally it also means misery and therefore more crime and more jails.

However, the fact is undisputed that Milwaukee now has the smalles park area of any city of its size in this country. Very much to the surprise nd disgust of the visitors who come here to study our municipal condi-

Strangers think this so much more extraordinary because of all cities in the world the cities of Germany lay the most stress on parks and a large share of the population of Milwaukee is supposed to be of German origin.

The only wooded tract rdll left within the limits of the city is the narrow strip on the Milwaukee river north of Locust street bridge along Humboldt avenue.

And a beautiful tract it is.

The trees were left in their natural atate and the grounds very much oved with shrubbery and ornamental thickets by the Uihleins, Franka and others who had their summer residences there for the last forty years. And on the upper part of the river the Cement company owns a large and wonderfully complex tract of land which as a site for a park is unsur-

Now there is great danger that the entire territory will be sold and used for factory purposes since there are railroads handy on both sides of the river. There is danger that the Milwankee river will be turned into a

A number of large factories have already been built west of the eement company's property.

However, it would be a crime if we should permit this beautiful atrip which seems to have been destined by nature to form one of the lungs of Milwaukee, to use that figure of speech—to become a ground for sweating human beings-a place for making more consumptives. Our children and grandchildren would never forgive us. And they ought not.

Therefore, this administration has decided to acquire these "ahore

acres" for a park. The Socialists want to make the city of Milwaukee a present of its river, or at feast of the most beautiful part of that river.

We have been at work quietly for the last eight months and have

secured options for the entire area on land contracta on twenty year The park proposed will connect with Riverside glen and Gordon place

at the south end and Lindwurm farm at the north end. It will include Wonderland on the east side and Blatz park on the west aide of the river The prices are right. It will be undonhtedly the cheapest park ever acquired by Milwaukee or any elty in this country, for the simple reason

that there was neither graft nor the profit of any real estate speculator to be considered in the transaction. And any tract where the option looks high priced will simply be re-

jected now, and acquired by condemnation proceedings later. We cannot condemn all the land necessary. Firstly, because con mation means ready cash, and the city has none. Secondly, because

the land as a whole could not be acquired cheaper even for ready cash. The property, no doubt, will command ten times its present price

twenty years from now but it will not be in the market.

Moreover, most of its cost will be paid gradually by the next generation.

Because if the city so decides it can issue refunding bonds for another, so

years after the present land contract has expired.

And for no other kind of city investment is it so justifiable to fet the next generation assist in paying as for park property. The next generation

will have even more enjoyment from the parks than we shall have. cover, the parks will have helped to make the next generation bealthy and rugged.

London has a River park of this kind on the Thames extending for

enty miles. New York has the park along the Hudson.

I have been in all of the larger cities of the country and have seen

many of the finest parks, but I can say that there is nothing anywhere to compare with the possibilities of the upper Milwankee river in the hands of a trained landscape gardener. And all experts who have seen the tract

Of course some politicians dislike the proposition because it originated with the Social-Democrats. Although for many years everybody acquainted with that part of the Milwaukee river has wished that the city would establish a park there.

These sly opponents of the Social-Democrata propose a referendum at this election on the park question.

To this we have the following to say:

National Edition (4 pages), 50 cents a Year in Advance

PURPOSELY PUBLISHED FOR PROPAGANDA

A referendum pre-supposes an initiative aigned and sworn to by several thousand voters. Otherwise any alderman who dislikes a measure could simply hide behind a request for a referendum and stop further

Furthermore, a referendum pre-supposes a thorough discussion of the question. This would be impossible at this election for lack of time. But the opponents hope that the higher taxes this year-ior which the Social Democrats are not responsible, by the way-would kneck out the project, although the park would only add about 20 cents annually per thousand dollars to the taxes for the next twenty years.

And last but not least many of the options would run out. And sine the park project is now generally known-many of the options could not

The city would therefore have to pay a much higher price, or lose

Moreover, parka form a part of the Social-Democrats program and our party was elected on that program.

We won out again last November which was practically an endorse ment of the eity administration and of its program.

And we are going to carry out our program, no matter what this or the other capitalist politician may think, say or do.

This administration does not intend to make this park a party measure, however. This is to be a matter of Milwaukee eltizenship. It is a matter in which all classes-rich and poor-are interested.

However, I admit that the man of small means, the man who cannot out to a summer resort with his family, is more interested. And the workingman and his family are vitally interested.

Nevertheless, if the capitalist politicians want to make the great Milwankee park a party question-well and good, we are prepared to make it a party issue. .The Socialists are will-

ing to take both the blame and the Victor J. Berger eredit for this noble undertaking, If the other side wishes "to play politica"

getting rich and the poor poorer'is wrong. The rich are getting rieh-slower, and the poor are getting rich-faster. The rich live on the interest of their wealth. That interest has dropped from 10 per cent in 1880 to 5 per cent in 1911. The average wage has risen, however, until today the average family receives \$900 a year."

So says the Rev. Newell Dwight Hillis, of Brooklyn. And a finer piece of religious pleading for the marauders of the people could be scarcely conceived. It well shows the function the modern capitalistic preacher per-forms and how much it is their trade to say things that the Christ they preto follow would never have

Evidently such statements ought to be very cheering to the ordinary man who toils for a "living." It ought to make him forget those fearful doctor oills, the high cost of living, the effort to keep the kiddies in shoes and clothes and school books, and the rent (all the traffie will bear!), and the interest on the money he has had to horrow to escape worse disasters, and he thousand and one facts of modern living that take daily bites out of him and keep him wondering if he can escape the poor house in his old age,

Yes, it appears to be the function of the Hillises of this age, as the un-worthy successors of the early Christians, to put the ease for capitalism in as plausible words as possible and to give the ordinary people pleasant verbal opiates in order to keep them submissive, while eapitalism extracts its increase from them and sets up its money changing tables in the wel-

And as long as the rich man keeps pew and passes the plate and eon ributes to the church funds, what matter, after all, that the eapitalistic preachers have driven the workingmen out of the churches?

Lille. France, who died recently, left ing various charitable bequests, to Socialist movement of that country. The money that will thus go Herald Staff Not To Be Jailed!

#### Comment on Passing Events. By Frederic Heath

Two hundred and fifty million dollars of land grabbing has been unearthed in Illinois by a special legislative committee. And all hy refined, respectable thieves who build churches and regard Socialism as unsaneti-

That was some edition last week! It was a pleasure to see the counter on the big press move up towards the too,000 mark. The main diffi-wankee, planned by the priests to in-

yn, told a Milwaukee audience last maoy Catholics themselves admitted Sunday that he saw a great future for that it was "had tactics." Davie saw

Cardinal Gibbons thinks the divorce mills are slowly and surely disintegrating the families of the land. One would think, however, that the disintegrating process had been at worl before the divorce mill was resched The Socialists are the only ones who can show the real cause, the economi cause of the divorce situation.

"Municipal Theater Proves a Fail-are." So reads an eastern newspaper heading. And where was this monici-pal failure located, do you think? Why, in Milwaukee, of course. It was a Socialist failure. Terrible, wasn't it? But, it never happened.

ropolitan—and a most specific city.
Nothing like having the world's record in a thing like this. A good aircnauge record, nothing mollycodide about til. Court Sustains Them in Their Refusal to Answer Certain Questions in the Neacy Libel Suit—Newspapers Misrepresent Decision

Reports are effe that the Morgan interests are after the popular maga-zines. But as a business matter they one of the most amazing pieces of a result of a seathing article against the person so ealled having been sailmisrepresentation the past week them the manufacturer "injunction king" as iog under false colors or false names,
far recorded against them. In the a result of his threat to enjoin the a disclosure of which might tend to posure articles. What may sappen is that one interest will get one magazine and another interest another and so on, and each one will expose all the rest except itself, or, in other words, will ose their pages to help on the capitalistic game of getting at the other fellow's throat.

It certainly looks a little strange to see certain usually level headed radicals in New York trying to start Ferrer modern schools in the United States. A modern school for be-nighted Spain has not only some fourth question would tend to incriminate him. I think such plea of privilege should he allowed.

On the examination of the same defendant, H. W. Bistorius, as an alteged officer of the Social-Democrative Publishing Co., I am satisfied that Mr. Bistorius should answer the first, and fourth questions; but if he says upon oath that he really helieves that

In spite of the judicial murder of several Japanese Socialists recently, the reports are that Socialism cannot be headed off in Japan. The Literary Digest says that Japanese papers admit that Socialism has been "striking deeper and deeper root;" among the students and educated classes, women as well as men. and rich people

Representative government is all among the rest. Capitalism has faid right provided the representatives represent the people and not the corporations.

Among the rest. Capitalism has faid its ruthless hands on Japan and its working class. Nearly a million women are engaged in the various of which records a real halds. Our readers will do well to hay the current issue of Life. It am nounces on the cover that it is a "Socialists" Number," and a glance through the pages shows that it lives up to the title in fine style.

factories, of which 700,000 are below to 4 years of age, and 100,000 below to 4 years! The London Daily News, a moong other papers, regards the recent executions as very discreditable to Japan, saying that the condemned men and women were tried secretly. factories, of which 700,000 are

The ill-smelling David Goldstein, who was dumped some years ago by the Socialist movement of Boston for the sake of the good name of the the too,000 mark. The main diffieulty encountered was the melting of
some of the rollers, due to the friction of the high speed that had to
be maintained.

The Rev. Dwight Hillis, of Brooklyu, told a Milwaukee audience last

many Catholics themselves of the church societies

the whole thing passed off as a many catholics themselves of the church societies

many Catholics themselves of the church societies

many Catholics themselves of the church societies

the whole thing passed off as a many catholics themselves of the church societies

many Catholics themselves of the church societies themselves of the church societies themselves of the church societies the church societies themselves of the church societies the church socie ets and other printing. The news-papers evidently regarded him as a "cheap skate" and had very little to say about his lectures and his lying attacks on the Socialists.

A Milwaukee attorney, who am-nounced that he had "made an exhau-tive study of the subject of Social-ism," told an audience of women the other night that nuder Socialism the other night that inder Socialism the man that wanted to use a wheelbarrow would have to make it himself and that he would be prevented from disposing if an extra one, if he, should make it. He said he wrote to a prominent Eastern Socialist and asked him what such man could do with the extra which the said here. wasn't it? But, it never happened. No municipal theater has been attempted in Milwaukee, consequently there could he no failure.

New York City can point with patriotic pride to its record of t85 minders during the past year. It indicates a most modern and a most metallic way and the such man could do with the way whether the wholes are well and the transfer of the probably the Eastern So forhore answering a fool according to the past year. It indicates a most modern and a most metallic way of the could be advisable for None, it would be advisable for lawy, ers to atick to their regular business of guiding the capitalists in the evasion of the laws.

"Let the church as an organization pay more attention in the future to the bodies, to the physical welfare, of the workingmen, and we will have a better chance at their sonls." So said a Chicago preacher in an address hefore a Congregational club in Milwankee a few evenings ago. It is a statement worth reading.

Mind, he does not say to look after the bodies of the workingmen for the sake of the workers' physical welfare but for an ulterior purpose. There is more "spirituality" than humanity in the remark. It reflects an attitude in the remark. It reflects an attitude that long ago drove the workingmen away from the church, and that is still doing so. If it is simply a case of conversion-scalps to hang at the pole of the tepec of religion, I can assure the reverend gentleman that he is on the wrong track.

His further declaration that the church "covid well afford" to stand with the workingman is the most of the standard of the covid well afford.

with the workingman in the matters that are being suggested for that poor working animal's uplift, brings to mind that immoral text in the writing

Publishing Co., I hold that Mr. 1910. I hold that Mr. Berger cann Heath should answer the first que properly elaim a privilege as to que tion propounded to him set forth in tion No. 1, and he should be set the order to show eause; and as to quiet to answer.

Heath, as an individual defendant, I publication of the libel in September, hold that he should answer the first 1909. question propounded to him; and as

As to the defendant, Victor L. Berger, as an officer and agent of the defendant, Social-Democratic Publishing Co. upon the operations are supported to the control of the defendant, Social-Democratic Publishing Co. upon the operations are ger, as an officer and agent of the defendant, Social-Democratic Publishing Co., upon the questions act forth in the order to show cause, as of December 20th, I rule as follows: Mr. Berger should answer questions; No. 7, No. 3, No. 4, No. 8 and No. 9; if question 7 is lin. ted to the present time, he may answer that. If he states upon out that he helieves his sameer to the second, fifth and sixth, questions, or either of them, might tend to incriminate him, his privilege should be allowed as to privilege should be allowed as to those.

As to the defendant, Victor L. Berger, as an individual defendant, and as to the 70 questions specified in the order to show cause of Dec. 20th, the bars

What Socialism Means

I. COLLECTIVE OWNERSHIP of the Means of Producing and Distributing Wealth, such as Lands, Mines, Factories, Railroads, Mail, Express, Telegraph and Telephon. Service, Light, Water and Hea Service, Light, Water and Heat Plants, etc., so that Private Monop-oly, Graft and Extortion will be Impossible, and Rent, Interest and Profit will be Abolished and All May Have the Full Product of Their La-

II. PRIVATE OWNERSHIP of cording to the Value of One's Labor. Socialism means the Public-Owner

the working class. The manufacturers' societies — organizations that were known by that name in Philadelphia and New York-proceeded to get busy in the interest of trade, and as a result debtors' prisons flourished as brazenly under the rule of the wealthy forefathers as they did under British oppression. And it was these manufacturers' societies that started the plan for a constitutional conven ernment that would give the wealthy better protection over the property which they had not accumulated by honorable labor.

Washington, a careful search of the records shows, was in 1776 accused of stealing 30,000 acres of land in Ohio from the British government when he was employed as a surveyor, and at the breaking out of the revolution he was being investigated being prosecuted under the "Quebec and the disclosures at the investigation might have resulted in a criminal prosecution. So there may have been other reasons besides patriotism that influenced Washington in throwing his influence with the

Belmont and Go

August Belmont is the president of the National Civic Federation. No man in America has done more to crush unionism than the New York banker and traction trust magnate.

He has never failed to enter into any conspiracy that would weaken or destroy the power and influence of organized labor. He has made a spe-cial effort to annihilate the mion of the street car men, and yet, William D. Mahon, the international president of the Street Car Men's union, sips sparkling champagne with Belmont annually, in the hope that the membership of organized lahor may con-tinue to believe that there is an "identity of interest" between master and

Samuel Gompers and the sixteen national and international presidents of labor organizations, who are now hooked up with the National Civic Federation, should be given to understand that no man can serve God and Mammon.—Miners' Magazine.

A Remarkable Chinese Factory

A Chinaman, Li Yu Ying, has established a factory for the manuacture of concentrated foods at Les Vallees, near Paris, France. Li Yu Ying is the head of a company in-corporated in China with \$400,000 capital. The experts employed in the fac-tory are 25 young Chinamen.

The products are extracted principally from the famous soya beans, and the amount of alimentary substances produced is said by the Consular Trades Reports to be astounding. "We are told," says the report. "that they include milk, cheese, casseine, oil jellies, flour, bread, biscuits, cakes sauces, and a variety of vegetables."

#### Socialism Summarized

lated to bring this about. This dennition, hit gives, perhaps, alequante expression e active and practical side of Socialism is out of account altogether its theoretical From this point of view. Socialism is tempt to lay the foundation of a reac of sociology, which shall enable man by thoroughly understanding their past present, to comprehend, and thus, within it, to control the movement and develop of their own society in the near future.

them nenotrovaru for the state of the personnel power over nature increased by each fresh leventien and discovery, a carapace of repression is lifted from the facties of each individual, and weath being made of pentiful as water by light, wholesond labor, all freely contribute to increase the own happiness as well as that of their fellows Humann nature assumes a new and highe character in a society in which the surroundings are such that life in not, as today, constant struggle against the pressure of wan and the temptations of misery. Instead of the personal, limited, introspective, individual ethic is the social, altrustic, broad ethic in which the duty toward society necessarily involves the highest duty toward a man's self. Woman, relieved of economic and social subjugation, will assume her place as the social equal of man.

doing. Be square with yourself. Remember that the warships are built fight their own battles, to spread death and destruction when ordered to do so. When you become your own hattles. Not use of the great guns, pistols, rifles scrap heap as useless, and cutlass. Do not deceive yourself.
You will he trained in the art of wholesale murder. Remember a good the majority and have the most to man-of-war's man is one who upon command will train his piece on his native city and if need he shoot his father's house full of holes.

In these days, when capital, money, rules everything, wars are not waged for ideals, but for profit. Be wise.

#### War—What For?

The king of Prussia and the em peror of France had a personal quarrel about who should he or should not he the new king of Spain which was none of their husiness. They got "real mad." War was de-clared. The "honor" of the precious pair of parasites was at stake. Nothing but hlood would wash out the stain upon their "honor." Of course, royal hlood was too precious for this jaundrying process. Noble blood was of course not available for such purposes. The blood of common work-ing class men would do very well for these brutes to do their wash-

Did the working people of France and Germany have any grudge against one another? Not the slight-But they hutchered one another hy the tens of thousands.—From George Kirkpatrick's "War—What For?"

#### A Very Deadly Parallel

Yesterday, while former President Charles W. Eliot, of Harvard, was declaring that every woman should bear one child every two years between the ages of 24 and 40, a starving little girl was found lying heside the body of her mother, who had starved to death in a New York City hovel, the father of the family heing ill with editor, and therefore I can assure consumption in the Bellevae hospital; you that I can speak with first hand a young mother of 22 years killed her-knowledge. And I say to you that self to escape the slow starvation which had overtaken the family; a Yonkers mother was offering her baby them discussing measures that would to any family that would feed it, this have no hearing on their welfare, no being impossible for her to do, and a matter which way they were settled man was arrested on the water front for holding up a tohacconist to procure money for his destitute family.

A Parity Call cure money for his
-N. Y. Daily Call.

#### Catholics and Socialism

A meeting was held last Sunday week, ander the anapices of the Catholic Socialist society in the Co-opera tive hall, Glasgow, at which the chair-man, Councillor John Wheatley, said that information had been received that the Vatican anthorities had instituted an inquiry into the spread of Socialism among Catholics, and had appointed a Jesuit clergyman to carry opponents of Socialism, which proceed dure could only lead to prejudiced conclusions. Why did he not ap-proach the Catholic-Socialist society, which carried on its work in a public

ing forced to see the need of anited political action to put a stop to such stealing of their liberties. The Los Angeles Citizen was very "pure and simple" up to the beginning of that

Let those who make the profits to fight You workingmen yearn

> I spent twenty years of my life in the newspaper husiness and during the majority of that time was employed on such cor, oration spokes-men as the New York Sun, New York World, New York Teibune, New York Journal, Chicago Trihune, Chicago Daily News and Chicago Dispatch. I held positions in the great game of misrepresentation all the way from the newspaper game is a conspiracy to cloud the people's minds and to keep affect the condition of the masses.

court will surely be in the interest of

property and against the interest of

The Four to Five Humbug

In closing, I wish to make a pre diction regarding the decision in the Standard Oil case. Chief Justice White is a Jesuit, and Catholic influence was used to induce Presiden Taft to make the choice he did Therefore, White is a Taft man. The four judges Tast appointed were ap-pointed by Tast after the corporation interests of Wall Street had approved on the inquiry in Britain. So far he had sought his information among the men in the present administration, opponents of Socialism, which process which is, like every administration which is, like every administration since Lincoln, completely controlled More Socialists

The validity of the Los Ange's anti-picketing ordinance has been upheld by the California Supreme Court, and this leads the Los Angeles Citizen, organ of organized labor, to say: "Chalk up at least 5,000 more Socialist votes for Los Angeles at the next election." The workers are being forced to see the need of aniis angeles of their last specific angeles and the five trait men will be on the Standard Oil side. If Justice Harlan or any of his three associates should by some mistaken calculation be against the hreaking up of the trust then one of the Taft appointees will flop to the other side. It will be made to appear in any event that the government lost out by a margin of the trust the one tag the specific angeles and the five trust does not be against the five trust hy the money power of the nation.
Therefore, the vote will be FOUR TO
FIVE IN FAVOR OF THE

game of burlesque and deception? I wouder.

"Slavery consists in the fact that ome men are in a position to compel others to work for them. It makes no difference whether the compulsion takes the form of threats of personal violence or fear of starvation. The effect is the same in either case."—Voice of Labor, Johanneshurg, Sonth

eral judgment of affairs was excel-lent, and he had a powerful weight

not only as chairman at public meet-ings and as a sound and convincing

speaker, but as a strong and domina-ting influence in favor of that policy

of steady pacific advance which has

resisted all the calculated attempts of

the German government to provoke Social-Democrats into open resist-

ance to police provocation and mili-

tary arrogance.
. These qualities he and his coadju-

tors displayed in a marked degree during the whole period of the anti-

Socialist laws; when no less a man than Prince Bismarck found himself

completely foiled by the determina-tion, ecolness and sagacity of the

leaders of the Social-Democratic

organized and managed by our late Comrade motteler.

Paul Singer

ight the iron chancellor and was was second to that of none of the elected to parliament in a working men with whom he worked. His gen-

Panl Singer, one of the famous So-private funeral in Berlin. More than cialist leaders in Germany, died last 10,000 persons marched hehind the week in Berlin, where he was born in hearse to the grave of Paul Singer, a

week in Berlin, where he was born in 1844 of Jewish parentage. In 1869 he and his brother atarted a cloak factory, which he operated for seventeen years. Singer accumulated considerable weslth and meanwhile became a eareful student of social problems, resulting in his joining the Socialist movement largely becanse of sentimental and philanthropic reasons. However, when Bismarck began his policy of persecution Singer became a militant member and nsed his funds liberally to fight the iron chancellor and was second to that of none of the osition, as he refused to furnish any financial assistance unless that provision was included. A few months later two or three

numbers by the enemies of the party, and 5,000 Socialists all over the state

pesling Article 9 of the State Constitution. It did so, it said, in the interest of Socialism and the Socialist party, and in spite of the fact that the State Socialist Convention a few weeks previously had almost unanimously passed a resolution op-

posing the amendment.

Still posing as a Socialist paper it then attacked the labor unions with the probable purpose of cresting bitterness and antagonism between them

Finally, to gain control of the party machinery it attempted to undermine the state secretary and members of the state executive committee, and succeeded as to get a motion for

So much will outside money accomplish, and so much can Socialists be

Twenty years ago the passing of Singer would have been a great loss to the Socialist movement in Germany, and his death will be severely fill. By A. W. Mance

## The Spring Elections Municipal elections are soon to be held in thousands of cities and

owns throughout the country.

You are looking for the most effective propaganda and educational

literature to distribute during the campaign.

It is one thing to distribute good Socialist literature. But it is just as important to select literature which will be sure of a hearing when put into the hands of the prospective convert. Many people will not read an ordinary Socialist leaflet. These same people will read the Milwaukee Social-Democratic Herald. They will do so for two well known reasons:

First: Because everyone is interested in Milwaukee on account of the iterature to distribute during the campaign

publicity given to this city by the public press.

Second: The great mass of people will read about people in action and doing things who would not read theories about what they would do

What can you use in your campaign which will prove as effective for campaign literature as the Social-Democratic Herald?

An old time Socialist eampaigner in Chicago this week told the writer that he had talked Socialism and distributed literature for years smong his fellow workers with little apparent result. One morning lately he gave them the Herald which contained the description of the purchase of land by the Milwaukee Socialistic administration for park and building purposes. He said, that worked on their mind like magie. That, they said, was what they wanted.

Order a bundle for free distribution.

Push the cluba in your district.
Remember, where the Social-Democratic Hersid goes, Socialists, Socialat votes, and growing Socialist organizations are the inevitable results.

## Books You Need

KARL MARX—By Wilhelm Liebknecht.

A touching account of the life and heroism of Marx by the veteran Liebknecht, who shared his privation with him in the days when Socialism was more than unpopular and its foremost advocates were in exile. Cloth, so cents.

THE EVOLUTION OF PROPERTY—By Paul Lafargue.

Lafargue is a son-in-law of Kari Marx and has written quite a number of books, of which this is the most serviceable. Cloth, 174 pages, price \$1.

Social-Democratic Herald, 528-530 Chestnut St., Milwaukee

#### A Great Book

"THE STRUGGLE FOR EXISTENCE," by Walter Thomas Mills. has had a larger sale than any other large American Socialist work. In its 640 pages it covers the entire field of the social, political and ic life of the human race in the simplest language and a lucid style that no one who can read the English language can help but comprahend. Mills is essentially the school teacher; he makes everything plain. He is the author of the articles on the British labor movement now running in the Social-Democratic Herald.

If you are interested, in any way, in economic, social or political questions, you can not afford to be without "The Struggle for Existence" in your library.

Price, \$2.50. In clube of ten, \$15.

#### Notice, Milwaukee Readers! The Carnival Association desires to

make as complete a report as possible in the near future. To do this it sdesirable that all

persons who have not paid for their carnival tickets do so without delay.

If YOU have not yet settled for your tickets, please do not neglect to do so as soon as possible. The amount due from each is small, but in the aggregate it means much to the party which needs the money to caron its work of perfecting the or-

NOTICE-If your name does not appear a

now and then the stocks on hand must be disposed of quickly, let the sacrifice of prices be ever so great. That is the reason in a nutshell for this February Sale—a sale brimful of tempting of-

ferings where reductions hold good for but ten short days. Heretofore we've given you the whole month to avail of the savings, but this year we've got to cut down the allotted time, for spring stocks are already coming in. And because the opportunity is shortened up, prices are more vigorously cut-a third deeper than at our February Clearing sale of twelve months ago.

### You Can Furnish Your Home Complete and Save Nearly Half

This Sale does not apply to an occasional odd piece—you will find a substantial reduction not only on Furniture alone for every room in the house, Living Room, Dining Room, Bedroom, Den and Kitchen but also on

## Rugs, Draperies and Curtains

An opportunity like this comes but once a year-at Fischer's-and this year, though the time is limited as above stated, the reductions are so much more pronounced. The coming week then-should you buy Furniture at Fischer's-will be one that you will take a great deal of satisfaction in remembering.

## C. W. Fischer Furniture Co.

217-223 Second Street, Corner West Water

#### City Aldermen Hold An Animated Session

Milwaukee.—Ald. Wittig (D.) was the ground that the county has althe cause of a "hair-splitting" match at the meeting of the common council Monday which promised for a time to become a hair-pulling match. As it was, the performance was much enjoyed by the numerons, spectators present.

Wittig Has a Hot Spell.

Ald. Wittig was wroth over having been called a "liar," as he claimed, by Ald. Welch, whom he had accused of having failed to give him (Wittig)

Ald. Wittig was wroth over having been called a "liar," as he claimed, by Ald. Welch, whom he had accused of having failed to give him (Wittlg) an opportunity to sign the printing bills to be allowed at the session. Judging by his actions, Ald. Wittlg's feelings had been very much hurt by an opportunity to sign the printing bills to be allowed at the session. Judging hy his actions, Aid. Wittig's felings had heen very much hurt by the alleged neglect on the part of the Socialist alderman, as well ss by being called a liar. Old party aldermen being so very sensitive, it was, of course, inexcusable on the part of the the word "prevaricator" would have answered as well, providing there were time to enunclate it plainly.

Aid. Welch to call him a liar when the word "prevaricator" would have answered as well, providing there were time to enunclate it plainly.

Aid. Welch claimed that it had been the custom from time immemorial for the printing committee to meet on Monday at 2:30 o'clock p. m., just preceding the meeting of the common meetings of the council; that Ald. Wittig's claim that he is unaware of these meetings is denied by the fact that, the printing bills presented at fourteen out of the mineteen meetings of the council, since the committee was appointed, were signed by Wittig; that he was absent from two meetings and that he was not to be found on Monday nntil after from two meetings and that he was not to be found on Monday nntil after the council had met. He also said the least said the council had met. He also said the least said the council had met. He also said the least said the council had met. He also said the least said the council had met. He also said the least said the least said the council had met. He also said the least said the

not to be found on Monday until after the council had met. He also said that Wittig made threats if the meetings of the committee were not called strictly in the manner provided by the charter and that he had left instructions with the committee clerk to notify the members of the committee clerk to notify the members of the committee tee.

The matter was finally adjusted on motion of Ald. Corcoran (D.) to accept the report of the committee and take the bills from the committee and take the bills from the committee had simply failed to appear at committee meetings when notified, and that the alderman was simply taking advantage of a technicality.

Ald. Mikkelson (S.) testified as to the care with which the hills had been considered by the committee and that the meetings of the same were and that all of the members of the committee were leid regularly at an appointed hour and that all of the members of the committee were aware of the time of the meetings. not to be found on Monday until after hours,

Ald Strehlow (S. D.) replied to the effect that the former committee didn't do anything because its mem-

and that the meetings of the same were held regularly at an appointed hour and that all of the members of the committee were aware of the time for the meetings.

Election Inspectors Quity.

The majority report of the special committee appointed to investigate the charges against the two election inspectors, Peter Stachiewicz and Anton Niezorawski of the Second precinct of the Eighteenth ward, signed by Alds. Welch. Rehfeld and All-dridge (S. D.), was adopted after objections to the same had been made by the same had been made to the same had been to the same to the time of the calary of \$1.20 and the calary of \$1.20 an

committee appointed to investigate the charges against the two election inspectors, Peter Stachiewicz and Anton Niezorawski of the Second precinct of the Eighteenth ward, signed by Alds. Welch. Rehfeld and Alldridge (S. D.), was adopted after objections to the same had been made by the minority members, Wright (R.) and Fred Braun (D.).

Ald. Wright said that, although he helieved that the two inspectors should be dismissed from the office of election inspector, still he believed that some of the charges had not heen fully sustained. This statement was made in explanation of his vote for the report.

Bays Quarries Don't Pay.

Ald. Carney (D.) opposed the purchase of a municipal stone quarry on compels to ommon council of a city compels.

Nearly the antire number of desta required have already bear rolled, so that it is probable that course will begin during the week. Only about twenty-five p can be necommodated on account the limited size of the rocat in a the lectures will be held.

At present count'es have to authority to approxiate money for tuberou-losis sanatorit. The bill gives this au-thority and also provides for the pay-ment by the state to each county maintaining such an institution of & per week per patient who is a county charge. All gatients who are able must pay their expenses in whole or in care.

It Would Surprise You

If you could only know, as we know, how some of the young people and wage earners are getting on in the world since they started a sawings account with us. Some who said: "I can't lay aside anything, my income will not allow it," are to-day our most enthusiastic patrons, and are looking shead to those things which can always be secured with a bank account. There is everything in making a start and our officers will be pleased to assist you. Start TO-DAY—NOW!

#### **Bringing Order Out of Chaos**

It Has Fallen to the Social-Democratic Administration to Put a Dirty House in Order. The Question of Taxes

The bringing order out of chaos A fixed amount also is required fur is a large part of the work of the state and connty funds and the inter-Social-Democratic administration as est and sinking fund. The amounts evidenced by the work being done at needed for the fire and police dethe eity hall to get the affairs of the partments, eity lighting, health and

This work has already revealed, in and the public welfare demands in-many instances, how the machinery of creased rather than decreased expengovernment has hitherto been always constructed and preserved for the purpose of guarding the interests of the capitalist class, as well as to further its interests in every possible manner. In none of the city's departments is

The tax commissioner of Milwan kee is appointed by the mayor, whose selection must be endorsed by the common council. The appointment for interest and sinking fund, leaving is for a term of six years, so that the commissioner appointed by the malodorous Dave Rose is still in office and will hold over until just before the close of Mayor Seidel's term of office. Under him are the ward asological term of two services are the control of two services are the control of two services and save to the verge of crippling itself in its work, if it so desires, in order to save money for the taxpaysessors, appointed for a term of two years, also by the mayor with the conent of the common council.

It can readily be imagined that,

considering the manner of his appoint-ment, the tax commissioner has but ittle to fear from the effects of a change of administration, since his reign continues long after that of the mayor, by whom he was appointed, may have ceased. The commissioner the consent of the mayor, also has the power to remove from of-fice any assessor under him for incompetence or neglect of duty.

Nor is this the only safeguard surrounding the capitalists in this de-partment of government. There are the museum and library boards, for nstance, composed of appointed officials whose terms expire at inter-vals and the complexion of which can he changed only after appointments have been made to them for many ears. In fact the law makes these poards self-perpetuating and the city cannot get control.

The result is that the administra-

tion, no matter how much it may desire to so regulate taxation and the disbursement of the city's funds for the best interests : the whole peo-ple, can yet regul, or vary, only a very small part of the total amount collected and expended. Yet it is very likely to be held accountable for even the taxes collected this year notwithstanding that it had almost nothing to do with the levying of the

what part of each dollar of taxes is received from the different sources:

Water department......\$0 00.27 Interest and sinking fund of the water department 1.83 Permits and licenses.... 9.24 State school fund refund. 6.84

Total ......\$0.18.18 Amount raised by direct taxation ..... 81.81

Total .....\$t.00.00
Out of this dollar a fixed amount

city into such shape that the people garbage collection, ash removal, spe-may be able at any time to ascertain cial sewerage tax, sewerage maintejust what their elected and appointed nance and for bridge maintenance and officials are doing. ditures in these departments.

Finally, there is left the appropriations for advertising and printing, books and stationery, salaries, city hall maintenance, emergency hospital, this more evident than in those that common council controls, which have control over the levying of taxes by the buoget. The total amount appropriate for these latter purposes are equal to 371/2 cents of each dollar for interest and sinking fund, leaving

> The unpaid taxes that could be unearthed by the "tax ferrets" and col-lected by the city would amount to more than all the money that can he saved by the strictest economy pos-sible. Still, the present saving in the several departments, notably in that of the public works, amounts to vast sums annually showing that if the entire control were already in the hands of the Socialists there would be still greater amounts saved, with the result that much of the good work funds could be pushed ahead at once.

does with the last 25 cents of every case and there is no reason why it dollar expended. Three times as much depends on how the other 75 cents are used. Thus, no matter how economical the administration may be it is still the system that determines for them as was customary. how by far the larger part of the money raised by taxation shall be paid. Capitalism rules, even in a So-cialist city, because it still controls 75 cents of every dollar raised by tax-ation besides controlling the means of obtaining livelihood.

In the city itself the Socialists will he in control only after the terms of office of the tax commissioner and the assessors and the members of the museum and the library hoards have The income of the city is from the following sources, the table showing school board must have been elected by them.

Even then their power for good will be fimited by state and national laws which will not be made right until Socialist majorities are elected to make them so.

It will be readily apparent from the

above that complete control of the city, state and nation only will enable the Socialists to effect those changes in the government of the nation that will insure to the workers the full product of their toil.

Out of this dollar a fixed amount However, every gain is an advance must be set aside for the public muscum, the library and the school funds. can ever reach our goal.

#### Comrade Melms Given Gold Watch

Presented to Comrade EDMUND T. MELMS As a Token of the Esteem and Ap

preciation of
The Milwaukee County Officials
In Behalf of the Entire Membership
of the S.-D. P., 1911.

County Organizer Melms was taken eompletely by surprise Monday evening at the meeting of the county central committee of the party. He was given a gold watch with the above inscription in the case.

Dr. W. C. Young, clerk of courts, made the presentation speech.

Ald. Melms' conscientious service to the party as an organizer and as an official has endeared him to all members with the result that he was singled out for the unusual demonstration of appreciation.

He has been a member of the So cial-Democratic party for fourteen years, and during that time has given fall his attention to the cause.

In Seidelberg

City Wins Important Suit An important suit was decided in favor of the city by a jury in Judge Tarrant's court on Monday.

Several years ago the city brilt the First avenue viaduct. Befure work was begun, and in order to expedite the same, Ald. Koerner stated to the common council that he had releases from all of the property owners in his nocket. is pocket.

his pocket.

Afterwards snits were started aggregating \$224,000 damages by the several property owners in the valley, who claimed they were damaged by the building of the viadual incline from the valley to the viadual incline from the valley below. Before the viadual was built there was no means for getting to the street level above except by the dirt roads along the banka.

The first suit started was by the

The first suit started was by the Pabst Brewing company, who own a saloon in the valley. The jury in this case awarded the plaintiff \$4,800 damages, and this case will probably have a new trial, a motion for the same having been made.

The second case was for \$80,000 damages and was instituted by the Gross Coal Co., in whose employ was the combined legal talent of the city recognized as the very best. The case was fought for the city by As-sistant City Attorney Williams, who obtained a verdict for the city Mon-

day.

How a company located in the valley at the foot of the viaduct can claim damages for its construction is beyond the grasp of the average mind, and it is believed that the pending suits are simply a part of a huge plan on the part of the capitalists of the city to mulct it every ime and whenever they see an opening.

The statement made by Ald. Koer ner at the time looks very suspicious in this connection for, why should an alderman make a statement that he had in his pocket releases from all of the property owners, when, in fact,

he had none? It looks at this time as if, had not a Socialist administration intervened, It is evident from the above that the question of whether taxes are high or low depends only to a very limited the above that the common council made for it. This was formerly the

Bogk Gets Another Jolt

Poor Bogk! To have all of his circumstantial evidence against the Social-Democratic administration knocked into a cocked hat and then to have an expert in addition prove that only an incompetent would use figures as Bogk did is disheartening, to say the least.

In his lecture on Municipal Ae-counting at the city hall Deputy Comptroller Evarts showed just how incompetent bookkeepers make mistakes, just as Ald. Book did. He showed how an incompetent accountant (or one who intentionally jug-gles the figures) can make things seem to be what they are not. He also showed how, in a case where a corporation changes its system by itself superintending work that was formerly done by contractors there will be a larger labor account, beeanse the account shows the amount expended for labor instead of showing the amount paid to the contractor merely. By analysis the books of the corporation show that, in the case where the corporation did its own work, there was nothing paid in profits to contractors, consequently that amount was saved to the cor-

Is it possible that Ald. Bogk has a soft spot in his heart for the con-tractors?

Short Jabs by the thy Hall Man Yes, come to think of it, a monu ment of skulls would be beiter.

And to, think that the old beast isn't even dead yet!

Just think! Our police department is the collection agency for the ten-derloin district, according to Inspec-to Riemer!

Police Commissioner C. M. Wright must have known this when he asked that the department be made the "Department of Public Safety" instead. But Wright had a long head anyhow.

Now, if poor Ald. Bogk could only prove that he had heen drinking Bogk beer when he wrote that article he might still save himself from everlasting infamy.

Oh, no! There is no particular relation hetween an alderman and a heer sign even if some of them do act there were-sometimes. Eh! as if the Wittig?

The proposition by Dist. Atty. Za-bel that we find out just who are the eminently respectable property owners who are partners in the business, doesn't seem to meet with much favor in the police department. Why? Well, that would be guess work.

"Hard is the rock and soft is the water, yet the hard rock is worn by the soft water," says an old Latin proverb. The Scotinel probably knows about that problem. Yet it must remember that Socialism is not a dead rock but a living, growing truth that wears away the opposing untruth, instead of being itself worn away by it.

IN MEMORIAM. The old tin cans, false scales, short measures and all the other claptrap arrangements nor of the city hall, the spoils gathered in hy the city sealer's department, would make a fine and appropriate picture to be placed on the tombstone of eapitalism.

Here's another way the capitalists of the city have of nagging the So-cial-Democratic administration: A young man-a stranger in the cityame to the city hall a few days ago asking to be directed to the labor agency in Mayor Seidel's office. He said that he was told, in a place where he went to look for work, that Mayor Seidel has started a free labor bureau in his office where he could register.

Sealer of Weights and Measures Jansen has been appointed the dele-gate from Wisconsin to the national convention to be held in Washington Feb. 15, and leave of absence for that occasion has been granted him 1 the council. In order that the legal aspect of the deliberations of the convention may not be lost to the city, Assistant City Attorney Mac-Intyre was also ordered to attend the convention on behalf of the city.

A measure legalizing the actions of the license committee in revoking sa-loon licenses will be passed by the council at some future meeting, it is said. It has been eustomary for the committee to act in this manner for years past, practically ever since the present license law was passed pro-viding that saloon licenses must be revoked by the common council upon the conviction of the holder on the charge of selling liquor to minors.

A department of public recreation will be created if the resolution to that effect introduced at the last meet-

ing is passed. The Somers system of real estate assessment will also have its inning before the committee on

Value of Useful Work

Value of Useful Work

Martin L. D. Bunge, who has become favorably known through his lectures, will speak at the Ethical Hall, 558 Jefferson street, Sunday, February 19th, 8 p. m., on the snbject: "The Value of Useful Work." Mr. Bunge will show that useful work is fast becoming the basis of a new aristocracy of the future.

Everybody is welcome. No admission is charged.

Those attending the Ethical Hall tures are always entertained with good music before and after the lecture. Prof. Chas. Zueblin (formerly with the Chicago University, now of Boston, Mass.), has been accured for course of three lectures on the 5, 12 and 19th of March. Prof. Zueblin always speaks to a crowded house at Ethical Hall.

#### As to that Manitowoc Supreme Court Decision

Capitalism must have its interest, be too high, the public would have rent and profits, and no court decision under it would be a just one that denied it these prime requisites for its

In the case of the city of Manito-woc vs. The Manitowoc & Northern Traction company this is very plainly shown. The traction company in this case operates an interurban line between and over the streets of Manitowoc and Two Rivers, a distance of seven miles. The road was huilt, pro-nably in the expectation that the two cities would grow faster than they did; so a clause was included in the Manitowood franchise, saying that the rate between the two cities would be

The two cities did not grow as fast as was expected but taxes and other expenses grew much faster, so that the company found itself without a profit in sight, at the beginning of

the year 1909.

It then decided to raise the fares, when these were paid on the cars, to 15 cents per fare. This was a had move for Manitowoc business men, who were doing a great deal of business with Two Rivers people, who came to Manitowoc to do business, led to do so by the low fare between the two cities.

True to the interests that pays ampaign expenses, the Manitowoc ity council enjoined the traction company against raising the rates. The city demanded that the company be held to its contract and the city attorney, A. L. Haugen, even went so far as to say that the public didn't care a rap whether the Manitowoe & Northman Traction Co. was Kankrunted by ern Traction Co. was bankrupted hy a low rate or not. The courts, however, gave it as their opinion that, if it could he shown that the rate was too low, the company was entitled to a ralse, because, if it were shown to

So, although the supreme court declsion is against the company and for the city, it points out, neverthe-less, that the company has merely to go to the railway rate commission and show cause why it should he allowed to raise its rates.

In the meantime, on account of the fact that it could not at ouce raise its rates, the company made a raise in workingmen's fares from 71/2 to 10 cents. Many Manitowoc workingmen had taken johs at Two Rivers, their wages being partly based on a special 7½-cent rate for workingmen. We have no record of any court decision to the effect that these workingmen would have heen entitled to a raise in wages on account of the raise in their

So the whole thing amounts to his: The courts have decided the method by which the public service corporations must proceed when they wish to raise their rates, in cases where they are bound hy contracts, and the workingmen of Manitowood who were working for wages in Two Rivers paid the cost of the proceed-ings hy paying an increase of 2½ cents in their fares, or 5 cents a day each. The traction company was in no danger of losing during the time the case was in court hecause it was pro-tected by a bond given by the city. The husiness interests of Manitowoc were in no danger, because had the case heen lost, the people of Manito-woc, and not the husiness interests would have paid the bill.

Suits of this kind are sometimes known as "friendly" suits, prohably

## Routing the Lines of a Street Railway System

In routing car lines, a street railway company in any large cliy has a difficult problem that cannot be fixed permanently as long as the city continues to grow and never can be fixed to suit every one in the several sections of the city.

The faster the city grows, the more business activity it develops, the oftener this problem must be tried over again.

Two important questions must always be considered in routing car lines—the trans-portation needs of the People and the reasonable economy in operation.

The questions are of the highest importance to the Public as well as the Company. Each of them involves many questions of

The grouping together of retail stores, office buildings, places of amusement, rail-road stations and hotels within a certain district makes it necessary that many lines of a street railway system shall serve that district.

To provide reasonable service for all sections of Milwaukee, and to promote the growth of the outlying residence sections and the surrounding manufacturing districts, THE MILWAUKEE ELECTRIC RAIL-

WAY AND LIGHT COMPANY has lines extending for long distances in all directions from the central part of the city.

To make the service of the greatest value to the Public, each line must be a useful member of the system of which it is a part and each in itself must be so operated that it will accommodate the greatest number of people practicable.

Business economy, as well as the requirements of the service, demands that the routing of lines shall be such as will distribute the travel most evenly, not only among the differcni lines, but throughout the different periods of the day and to the different sections of the

Beginning twenty years ago with five street railway properties that had been operated separately, and in some instances with more than one line in the same territory, this Company has found it necessary to make many changes in the routing of its lines.

The object in each case has been to pro-vide the most direct transportation practicable between those parts of the city which have most in common with one another, and at the same time to strengthen and make more comprehensive, the system as a whole.

### News of Organized Labor Conducted by Walter S. Fisher Address all Communications to Room 206 Brisbane Hall

printers of this city have accepted the new scale as presented by the Typo-graphical union and which carries a substantial increase in wages as follows: The wages of book and joh men were increased from \$15 to \$18 per week, evening newspaper men-from \$18 to \$21, and employes on morning newspapers from \$19 to \$24

Chicago, Ill-Under the name of the Bookkeepers and Assistants' association, the city hall elerks and assistants of department heads have or-ganized a union and will make a demand that is the next budget a minimum ary of \$1,500 a year be paid bookk epers and clerks.

Phoenix, Ariz. — Three measures, adopted by the Arizona Constitutional convention last month, are intend-

were notified that their wages would brewing company, and the Weber be cut on account of the dull season, and every one of them immediately both these firms are enemies of orlaid down their tools and walked out. At the time of the strike the men were unorganized, but they immediarcly applied for membership in the Jersey City union of the metal polishers and it is expected that they will be enrolled in the union. They request all hed makers not to ask for work in the shop and thereby help them win the fight against the reduc-tion in wages, and also for better con-

Buffaío, N. Y.—Painters and uphol-terers employed at the plant of the Erie Motor company in this city are out on strike for improving conditions. The men claim that there are tions. The men claim that there are more than 1,000 of their number out. either directly or indirectly as a result of the strike. They demand that they be paid a straight day or hourly wage, instead of under the piecework system, as heretofore.

San Rafael, Cal.—The State Build-

ing Trades council, which was in session here last month, adopted a resolution providing for the purchase of an industrial farm to provide sus-tenance for the many men who, it is

said, will engage in a general strike in Los Angeles next spring in an attempt to unionize that city.

New York City, N. Y.—For the first time in the history of organized labor a union eard will be displayed in a bank, the firm of M. & L. Jarmu-lowsky of this city having signed in owsky of this city having signed an agreement with the Bank and Office Employes' union. Demands will be cryed on all the other banks and offices on the east side for an immediate settlement of the union's require-ments. According to the agreement the hanks will have to close at 8 oclock in the evening, except Saturdays, when the clerks will work later.
Chicago, Ill.—The wage scale of the

olish Typographical union of this ity was recently increased in a very substantial manner. The old seale for handmen was \$17.50 per week for first class and \$15 for second class. The new agreement calls for a seale of \$20 per week and the second class is eliminated, except that one man ean he employed in each office to distribute type, correct mail list and help on forms, at a scale of \$18 per week. The machine scale remains at 15 cents per thousand for all sizes of type. with the option of the office operating under a time scale of 50 cents per hour for day work, and 55 cents per hour for night work. The new agree-

ling under a time scale of so cents per hour for night work. The new agreement has been signed for a period of one year.

Marion, Ind.—The Typographical union of this city was recently successful in negotiating a new scale with the employing printers whereby the members are benefited by an increase in wages of \$1 per week.

## At the Theaters Next Week

Davidson-"The Arcadians."

Davidson—"The Arcadians."

Charles Frohman will present the three-act fantastical musical comedy, "The Arcadians," at the Davidson theatre the week beginning Sunday, February 18. "The Arcadians" comes here direct from its year's run in New York and with the original east and scenery. This delightful musical play has won the bighest praise for its daintiness, its charm, its exquisite music and its rippling fun. The theme is one that lends itself readily to all that is best in the way of a seenle and musical production. Owing to the elaborate musical program, the evening performances will begin promptly at eight o'clock and the Wednesday and Saturday matinees at two.

AUDITORIUM-People's Concert Another big program of high class music will be rendered by the Bach Symphony orchestra Sunday afternoon for the people's concert at the Anditorium. You cannot find a better place to spend the afternoon with your wife and children. Urge your friends and neighbors to come with you. Help fill the hall and show the management that these concerts are management that these concerts are appreciated by the working class.

lesquers will be the attraction at the New Star Theater. The "Aeronaut" is the title of the

management that these concerts are appreciated by the working class.

New Star

### Railway Lobbyist Busy at Madison

Opposes the Kiefer Bill from "Moral Reasons." The Conservation Bills-Senator Gaylord's Important Joint Resolution

baric conditions of the oppressed and downtrodden

committee on Comrade Kiefer's hill advocate of oniversal brotherhood, law so that, the relatives of an injured foreign workman may sue even though they live in a foreign country. Under the present law the widow and orphans, of an alien workman cannot recover damages for the death of the husband and father, unless they pays the St. Paul road to hire foreign mulcted coming and going.

lahor in preference to American lahor

To Amend Conatituti Killilea is opposed to such a rash measure which if adopted will make the United States, not the millionwill recover for the death of

Madison, Wis .- The time limit for ments one wonders wiether there is initiative and referendum in our state introducing bills has expired this any limit at all to the greed and ava-legal to the greed and ava-legal to the greed and ava-legal to the greed and ava-plify the method of amending the Tnesday. On the whole over seven hundred bills were introduced. Our comrades did their share of the hard work by introducing almost one-third of these. This is a comparatively large number for one-eleventh of the representatives, and meant hard work day and night. A cursory glance through the bills is sufficient to convince the most skeptical that the workingmen are being well represented in Madison. Each hill aims to eradicate a real and long suffered wrong, and the passage of suffered because it will save them a few minded and selfish patriots, not because it will save them a few minded and selfish patriots. wrong, and the passage of any of dollars, but because it will mean the them means another step towards the final amelioration of the present barthis country which by right belong to some destitute widow and orphans. It is only capitalists and their tools Killilea Bobs Upl who can unfulshingly advocate such an inconsistently dual standard of ethics. After all, who is the sincere

the husband and father, unless they were residents of the United States ing held on the bills providing for at the time of the accident. Mr. Kil-conservation of natural resources. the time of the accident. Mr. Kil-iconservation of natural resources, lilea, lawyer-lobbyist for the St. Paul One of the measures proposes that road appeared against the bill. Of the timber lands which were stolen by course, Mr. Killilea did not argue for the "self-made" pirate lumber barons, the defeat of Comrade Kiefer's bill and from which all of the timber was the defeat of Comrade Kiefer's bill and from which all of the timber was because under the present law it is cheaper for the St. Toul road, as well and used to swell the profits of the capitalistic class, (even the splinary and the capitalistic class, (even the splinary with the capitalistic class, (even the splinary with the capitalistic class, (even the splinary with the manufacture of toothpicks)—that the state of the composition of the capitalistic class, (even the splinary of the manufacture of toothpicks)—that the capitalistic class, (even the splinary of the manufacture of toothpicks)—that the capitalistic class, (even the splinary of the manufacture of toothpicks)—that the capitalistic class, (even the splinary of the capital death owing to the fault of the com-pany. Oh no, Mr. Killilea is too serve the important streams, as it is much of a patriot and entirely too located on their head-waters. Thus charitable to argue that at present it the people of the state are being

To Amend Constitution because they not only work for low-er wages, but if you happen to kill them it costs the road nothing; al-though Mr. Killilea admitted frankly Comrade Gaylord has introduced a that ninety-five per cent of the un-skilled lahours employed by the St. tion-lawyer judges shall rest in the Paul road are foreigners. Mr. Kil-lilea rather seemed to prefer to take a hroad minded view and warned the vides that whenever the people dea broad minded view and warned the legislators that if this hill is passed it will simply mean that so much more money will be sent out of our country; that is, if this bill is enacted into law and a foreigner is killed, his wife living in some Euro"masters" so that they might vote upon it and then after the people devices that when extends the might will be sent out of our country; that is, if this bill is enacted into law and a foreigner is when the masters will be a sent out of our country; that is, if this bill is enacted into law and a foreigner is when the people devices that whenever the people devices that the people devices that it will simply mean that so much in properties that whenever the people devices that the people devices that it will simply mean that so much imploringly kneel hefore their "sercountry; that is, if this bill is enacted into law and a foreigner is a mended the constitution they in the people devices that whenever the people devices that the people devices the people devi pean country can recover, and Mr. upon it, and then after the people have voted upon it, the legislatore, if in its infinite wisdom sees fit, can ratify the amendment adopted by the sires, just as much poorer as the people so that it really and truly may become an amendment to the constitution. In short, Comrade Gay-When one listens to such argu- lord's resolution will incorporate the

#### Town Topics by the Town Crier

Public Service, of Chicago, a corporation grafters' special organ, has an article about those ornamental street lights on Wisconsin street in this city. It calls it ornamental lighting. It may be ornamental, but in the matter of lighting the lamps are not much better than tallow dips.

That song at the minstrel show at the cathedral hall the other night, slamming the Socialist administration tion absolutely. Whether Neacy will slamming the "good old days" would return, should create no surprise when it is understood that one of the singers is a relation of one of Milwaukee's most successful grafters.

Judge Eschweiler decided that Victor I.. Berger need not answer fiftyseven of the seventy questions asked him in the examination before Court Commissioner Roehr, and the daily papers asked their readers to believe that the Socialists had lost out! We can stand a good many such "de-feats!"

Says the Daily News, editorially: Milwaukee needs a press agent. And that press agent should be the business associations. They should see to it that knowledge of the good things of Milwaukee reach not only the world, but her

own citizens.

It is possible that the News editor has never heard of Ald. Bogk?

We are not posted on present conditions in Chicago, but a few years ago the taxes upon the homes of the working people were apparently lower than the amounts assessed in Milwauworking people were apparently lower than the amounts assessed in Milwaukee. An instance was brought to our attention where a cottage in Chicago which rented for \$15 was taxed \$6.25. In Milwaukee under Rose a house in one of the residence wards of the South Side that rented for \$8 was taxed \$25.

Here is an interesting fact: Al-hough the amount of taxes levied for collection this year was a million dollars more than at any previous ear, the city treasurer's accounts, at he close of business Feb. 15, shows that the delinquents were \$8,000 less than at the same time last year. Mil-waukee's delinquent tax list is much smaller than any of the large cities in the United States.

It is reported by men who sought work up the river that the Kopmeier ice trust has not attempted to fill its ice houses and that there is a large space still empty in all of them, furthermore that during the cold weather in December it made no effort to take full advantage of its chance for a harvest. Does the trust intend to face the coming sommer with ice houses half filled in order to have an ice scarcity and therefore a chance to screw up the prices, or did it fear to employ the men applying for fear they voted for the Socialism.

Supervisor Archibald, who is the proprietor of what a certain member of the common council would call a mixologist emporium, up in the Eighteenth ward, arrived at the last countries of the season, and said in explanation that it heave put in had failed to give him any concention of the reel spirit and intent-of Socialism.

Supervisor Archibald, who is the proprietor of what a certain member of the common council would eall a mixologist emporium, up in the Eighteenth ward, arrived at the last countries of the common council would eall a mixologist emporium, up in the Eighteenth ward, arrived at the last countries of the common council would eall a mixologist emporium, up in the Eighteenth ward, arrived at the last countries of the common council would eall a mixologist emporium, up in the Eighteenth ward, arrived at the last countries of the common council would eall a mixologist emporium, up in the Eighteenth ward, arrived at the last countries of the common council would eall a mixologist emporium, up in the Eighteenth ward, arrived at the last countries of the common council would eall a mixologist emporium, up in the Eighteenth ward, arrived at the last countries of the common council would eall a mixologist emporium, up in the Eighteenth ward, arrived at the last countries of the common council would eall a mixologist emporium, up in the Eighteenth ward, arrived at the last countries of the common council would eall a mixologist emporium, up in the Eighteenth ward, arrived a It is reported by men who sought

mile when the decision of Judge Eschweiler (related on the first page of this issue of The Herald) became known. It was a complete victory and establishes a new right under the law. The contention of the attorney seemed daring at first, and lawyers and judges shook their heads, yet a careful study of the question brought

out a decision sustaining his conteotake the matter up to the supreme court or not, is not yet known. Milwaukee is still supplying the state industrial school at Waukesha with a third of its inmates, in spite of

probation officers and juvenile sessions of the district court. Who says it is not time to supply parks and playgrounds and provide wholesome amosements for the children of Mil-

And another thing-Milwaukee suplies 40 per cent of the patients at the state tuberculosis sanitarium et Wales, and 50 per cent of those on waiting list are from this city Isn't it about time to look after hoos ing conditions and get more breathing spots for our people?

Repeated reports come to this office that Manager Scholtka of the Nordberg Company works makes it a practice to tell applicants for employment that he has nothing for them and that they better go to Mayor Seidel, accompanying the remark with a leer. He is said to be of that type of men who woold consider such a practice very witty. If the uncertain flops of capitalism's wheel of fortune should eventually land the gentleman in the poor house we hope he will Look back upon his "joke" at the expense of menseeking the chance to live and get what ing the chance to live and get what enjoyment he may out of the mem-ory.

Social-Democrats enjoyed a good laugh this week over the newspape report of a speech on Socialism fore a woman's club by Atty Glicksman. For utter foolishness, comin from a man of standing in the lega profession, it was far and away the rankest piece of work we have seen Mil-much things he said was that to be consistent a Socialist'should believe in com munism. His speech was full of lawyer quibbles, and indicated, nnless he was shamming, that all the "deep study" of the subject he claimed to

constitution, but will also in the ture make the people the real rulers of their own government.

The other member of the Siamese Twins has already made his appearance. It would be contrary to all the laws of nature if when Henry Cochems makes his debut somewhere the other twin should not also shortly appear ou the scene, and vice versa.
Why! they even journied together
in their crosade against the liquor
traffic. Charley McGee, of Heisdorf fame, is registered as a lobbyist for some of the brewery interests against whom he but shortly campaigned in a neighboring state. This must be the neighboring state. This must be the "unkindest cot of them all" to the prohibition element which was so easily taken in by Charley and Hen-

#### Holds Railway Responsible for a Human Life

One of the most intelligent juries of Fredericka Guth, the attention of that has yet served under Coroner Superintendent Dysart of the Chil-Nahio brought in the following verdren's home, was ealled to the fact Vahio brought in the following ver-Clinton street, aged 50 years:

Reedy came to his death railway company in not providing for a hetter class of help proper safety devices at the National In the case of Mrs. recommend:

make secure the life of persons traveling on highways crossed by railway trains, that safety gates be provided, especially where the tracks are not depressed or elevated."

Nakin Security on the have been expected to be the right person to properly care for infants in large numbers.

Supt. Dysart, in a letter to Coroner Nahin, thanks him for the suggestions given him for the suggestions gives him for the suggestions given him for the suggestions gives Nahin Scores Again

In the case of Herman LeRoy charge Reed, the baby that died at the home future.

rather loosened tongue and said a lot of things that would not bear analysis afterward. One thing we did look up, however. He said that the court house engitte room was burning more coal now than it did under the former regime. We wondered how this could he, and this is what we found: Comparing the year 1909 with the year 1910 as to the total of weight used, we found that in 1909 there was 16, 900 poonds more of coal burned than during the year 1910. However, there is another fact in connection with this matter that is interesting. In 1909 the county paid \$2.37 for the coal for the court house, while in 1910 he price paid was \$3.05, a difference of 68 cents. The coal barons are the ulprits, not we. ather loosened tongue and said a lot

How funny it seems in these days of faithful city officials to turn to the fles of the newspapers of a few years back and chance on such items as the following:

"Mayor Gone for Nine Days.—
Mayor David S. Rose left for Tucson, Ariz., yesterday, to be absent nine days. He goes west to-look after the equipment of a railroad to mines at Twin Buttes." (Free Press, December 10, 1905.)

We reprint this one item out of

"This is the most-businesslike looking state of things that I ever encountered in the city hall," said a well known husiness man the other day to Mayor Seidel. And he added that that was what the city had needed for years. The city needed that thing, and also that the officials "This is the most-businesslike look-

be busy in the people's interests, as they are today, instead of busy in rascality, as they were before the grand jury caught them.

#### Do the Newspapers Play Politics?

It was announced in all the Mil-waukee daily papers a couple of days ago that the City Attorney had rec-ommended that the matter of Health Commissioner Kraft dismissing cer-tain employees be turned over to the grand jury. Mr. Hoan asked the newspaper men to deny this report and correct the false impression that had been sent hroadcast. He further stated to them that

had been sent broadcast.

He further stated to them that what he had said was that he had the utmost confidence in the honesty and sincerity of Dr Kraft, that if he bad dismissed any employees it was because he houestly believed it was for the welfare of the people of Milwaukee, and, therefore, that he was pleased that the men were dismissed. He added that this administration before election had promised to elean to mines at Twin Buttes." (Free Press, December 10, 1905.)

We reprint this one item out of many to help on the chagrin of Ald. Carney, who thought he had found a great thing on City Clerk Thombson, but afterward found that the clerk had simply taken the number of days off allowed him by law for a vacation.

He added that this administration before election had promised to elean out the bad ones in the City Hall, and that if our present city officials were to he indicted for carrying out the party pledges they would all be in jail. All the papers refused to print the above statement, and but one had the fairness to enter a aimple denial of the charge.

MILWAUKEE

pound brick; no wit requires just six-pound brick; no wit requires just six-teen ounces to make a pound. Pa-per boxes were once sold as eandy; now the candy in the box weighs costs paid to the city as well as many

sixteen ounces, instead of thirteen and one-half. The ice-man can no ionger give his customers a shortage in weight of from to to 25 per cent to make up for shrinkage on the wagon; eleven ice-men found that this is a dangeroos practice when they were haled into court. The coal dealer can no longer go to the yards and buy 1,700 pounds of coal and deliver it to his customer as a ton, nor can he buy 134, 234 or 334 tons and deliver them as 2, 3 or 4 tons re-spectively. It isn't safe, not since Sealer of Weights and Measures, F. C. Jansen shook his finger under their noses and said, "Look here, this business has got to stop!"

Liquids can no longer be safely sold by dry measure and the house-wife no longer pays for the paper in which her lard, butter, groceries, etc., are wrapped, nor for the wooden plates in which they are contained.

False scales, dented / milk-eans. short measures and dozens of other contrivances that heretofore cheating easy are no longer allowed to roam promiscuously about the city but are safely stored, properly labeled and packed away, by the thousands in a room on the eighth floor of the city hall where, as a relic of the past, they are a 25 cent show all by themselves.

Certainly, as Mr. Jansen says his annual report just out, not all of the bad practices indolged in by erchanta bave been done away with merchants have been done away with and it will take some time longer to wipe out some "so-called tradecustoms and had practices," but, in time, these also will give way to honest methods.

City Sealer Makes Report

\$1,179.65 in fines, witness fees and costs paid to the city as well as many times the entire cost of the department saved to the people of the city by receiving just weights and measures when purchasing goods. Of the 7,518 scales inspected, 3,324, a little more than one-half, were found correct. Of the defective scales only 1,202 could be adjusted and made to weigh properly, and 3,224 were condemned as oseless.

Of a total of 24,645 measures in-spected, 19,262 were found correct, and 5,383 were condemned. Three thousand six hundred and

Three thousand six numered and eighty-five stores were inspected and 718 were reinspected because scales in them had been condemned. Of these, 1,020 were found correct and 2,665 not correct. Four hundred fifty-nine stores and

peddlers were tried out; 98 of these were found O. K.; 361 were found wrong; 297 of these were given warn-ings and 64 were arrested.

Not all of the shortcomings found were intentional, some of them being due to ignorance or carelessness and others there were where the sins of wholesalers and shippers clung to the retailers, as they had clung from time immemorial.

It is worthy of note that, although the department was created in December, 1909, it was able to do very little for want of a proper force, which was granted it by an ordinance passed by the common council in July, 1910. From that time on it was a terror to evil-doers in the city who came under its observing eye.

If making this department effective were the only act of the Social-Demwere the only act of the Social-Dem-ocratic administration worthy of note it would still have accomplished as much good as some reform parties claim to have done when they ask for re-election on the ground of the good they did while in office.
